

Aerosol Measurements

Jan Pettersson, Jun Noda, and Torbjörn Gustafsson

Atmospheric Science group
Göteborg University
Sweden

Aerosol Mass Spectrometer

Quantitative detection of alkali
metals in single particles
20-400nm

Aerosol Particle Spectrometer

Dustmonitor

Particle size range 0.23-20 μm

Scanning Mobility Particle Sizer SMPS

Particle number size distribution
8-320nm

Cyclone impactors

P.M. 2.5

EDXRF, IC, TC, OC, EC
